DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with W. William Park, Reg. No. 55,523, on 14 February 2005.

The application has been amended as follows:

In the claims:

In claim 1, line 10, the phrase "a plurality of branch sections" has been replaced with --at least 3 branch sections--.

In claim 2, line 2, the phrase "centipede-shaped" has been deleted.

End of examiner's amendment.

Allowable Subject Matter

2. Claims 1-14 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose a vertical alignment mode liquid crystal display device of claim 1, in particular the limitations that there is a resin layer having a protrusion with a middle section and at least three branch sections, every branch section extending from the middle section perpendicularly, and that there is a pixel electrode formed on the protrusion while being disposed all over the pixel region. Claim 1 is therefore allowed, as are claims 2, 3, and 5-8 which depend from claim 1.

The prior art does not disclose the vertical alignment mode liquid crystal display device of claim 4, in particular the additional limitation that the structure of the protrusion and the pixel electrode is formed into a clamp shape within a unit pixel. Claim 4 (having been written in independent form) is therefore allowed, as are claims 9-14 which depend from claim 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
